# Experience

## **DevOps Working Student**

Nokia Wrocław

Sep 2021 - present

I'm responsble for managing and hardening embedded linux systems using the Yocto Project stack. Here I've learned core Agile principles and common Jira workflow in practice.

#### Education

#### **Electronics and Telecommunication**

2019 - present

Wrocław University of Technology, Faculty of Microsystem Electronics and Photonics

## **Projects**

#### O Box Tailor

## Parametric box design

2020 - present

### Technologies:

Go (Sciter)

An app than can be used to create and export boxes based on product measurements given. The templates arose are then optimally fitted onto boards of given dimensions. This way the whole template can then be cut on a laser cutter or cnc plotter, allowing small businesses to have their own custom box solution.

2020, 2021

#### 7 Typer

Typing test in your terminal

**Technologies:** Go (cobra, bubbletea), make

2021 - present

**Technologies:** 

rMarkdown, Actions

Typer is a terminal application that measures your typing speed. I've contributed to this open-source typing test implementing functionality such as command line interface, flags, piping, as well as bugfixes and more.

# • Resume

My personal resume

The document You are seeing now was created in *rMarkdown* and is converted to a pdf format automatically using *pandoc* and *GitHub Actions*.

# Skills

- Go (test, Sciter, Cobra, Bubbletea, go-chi, go.uuid)
- Python (numpy, pandas, matplotlib)
- git, GitHub (Actions), gerrit
- UNIX, bash, vim, ssh, tmux, make
- Docker, Kubernetes
- (r)Markdown, XML, Json, Yaml
- JavaScript (certificate), C++ (std)

## Languages

- Polish native
