Experience

DevOps Working Student

Sep 2021 - present

Nokia

I'm responsble for managing and hardening embedded linux systems using the Yocto Project stack. Here I've learned core Agile principles and common Jira workflow in practice.

Education

Electronics and Telecommunication

2019 - present

Some University of Technology,
Faculty of Microsystem Electronics and Photonics

Projects

2020 - present

Technologies:
Go *(Sciter)*

⌱ Box Tailor
Parametric box design

An app than can be used to create and export boxes based on product measurements given. The templates arose are then optimally fitted onto boards of given dimensions. This way the whole template can then be cut on a laser cutter or cnc plotter, allowing small businesses to have their own custom box solution.

2020, 2021

Technologies:
Go *(cobra, bubbletea)*, make

⌱ Typer
Typing test in your terminal

Typer is a terminal application that measures your typing speed.
I've contributed to this open-source typing test implementing functionality such as command line interface, flags, piping, as well as bugfixes and more.

:::::::::::: {.cols data-latex=""}

2021 - present

Technologies:
rMarkdown, Actions

⌱ Resume
*My personal resume*The document You are seeing now was created in *rMarkdown* and is converted to a pdf format automatically using *pandoc* and *GitHub Actions*.

Skills

- Go *(test, Sciter, Cobra, Bubbletea, go-chi, go.uuid)*
- Python *(numpy, pandas, matplotlib)*
- git, GitHub *(Actions)*, gerrit
- UNIX, bash, vim, ssh, tmux, make
- Docker, Kubernetes
- (r)Markdown, XML, Json, Yaml
- JavaScript *(certificate)*, C++ *(std)*

Languages

- Polish - *native*
- English - *professional*
- German - *elementary*

Interests

- ComputerAided Design
- Electronics and Tinkering
- Graphic design, photography
